

SHELJIN S.A

Full Stack Developer

Specializing in Django and DRF (API), building scalable web applications and robust APIs for seamless performance. I deliver clean, efficient code while adhering to industry best practices, ensuring success in challenging environments.

WORK EXPERIENCE / 1 YEAR

Full Stack Developer/Senior Developer Clovion Tech Solutions Pvt., Ltd.

05/2024 - Present

Azhagiya Mandapam, Tamil Nadu, India

Projects

- **E-Commerce Project API** – Designed and implemented scalable RESTful APIs using DRF, Swagger UI, 2FA, JWT, and "Eraser.io." Optimized backend performance, improving system stability. Worked collaboratively within a 5-member team, focusing on backend architecture, microservices, and API design.
- **Billing Software** – Built a billing system using Django and ReportLab to manage bills. Used MySQL and ORM for database integration, enhancing back-end performance. Focused on deployment and stability. Ensured attention to detail and maintained version control with GitHub and cPanel.
- **Front-End Projects & Mentorship** – Developed dynamic, responsive interfaces using HTML, CSS, JavaScript, Bootstrap, and HTMX. Implemented RESTful APIs for seamless integration with back-end services. Mentored junior developers on scalable code, industry trends, best practices, and performance optimization.
- **Deployment & Management** – Deployed Django, DRF APIs, PHP, and static HTML projects to cPanel web hosting. Managed MySQL databases, implemented cloud architecture strategies, optimized REST API performance, and maintained version control with GitHub for seamless collaboration and deployment.

PERSONAL PROJECTS

E-Commerce Website - <https://shelj.pythonanywhere.com/> 

- Built and deployed an e-commerce website using Django on PythonAnywhere, implementing a responsive front-end with cloud architecture. Focused on feedback-driven improvements and implemented best practices for scalability and performance.

Face Recognition Authentication

- Built a facial recognition authentication system using Django, leveraging computer science principles for secure authentication. Collaborated on back-end development, ensuring seamless communication between system components for optimal performance.

Twilio: Share Location and Send Message

- Integrated Twilio to send messages and share real-time location.

EDUCATION

Bachelor of Engineering

Mar Ephraem College of Engineering and Technology

05/2020 - 06/2024

Electrical and Electronics Engineering

SKILLS

Django Django Rest Framework

RESTful APIs Python HTMX

HTML CSS JavaScript

MySQL Bootstrap React.js

ReportLab Eraser.io Swagger UI

JWT API Simple JWT

Deployment cPanel

Git Version Control PHP Github

Microservices Tailwind

ACHIEVEMENTS

Competitive Coding Excellence

Solved over 100 problems on platforms like LeetCode and CodeChef, demonstrating strong problem-solving and algorithmic skills.

Deployment Success

Deployed multiple applications on platforms like PythonAnywhere, Netlify and cPanel, ensuring smooth hosting and performance optimization.

Database Management

Integrating tools like Eraser.io for better database mapping and management.

Mentoring Junior Developers

Helping them improve their coding skills, write scalable code, and adhere to industry best practices.

COMPETITIVE CODING PROFILE

LeetCode 

CodeChef
